Kennedy Space Center Visitor Complex

MEETINGS & EVENTS

Why settle for an ordinary ballroom
when your next event could be surrounded
by the excitement of
mankind's greatest adventure?

View from the Debus Conference Facility
during a recent Space Shuttle launch.

Sit down, strap in and **GET VERTICAL!**

Launch your next event at Kennedy Space Center.

Apollo/Saturn V Center

Apollo/Saturn V Center

For details and PCMA Space Verified®
Room Diagrams, go to:
www.KennedySpaceCenter.com/meetingsevents

The spirit and scope of moon landing missions are authentically recaptured in this enormous 100,000-square foot facility. The centerpiece of Apollo – and your banquet – is the gigantic Saturn V moon rocket. Guests experience a dramatic and moving multi-sensory presentation of an Apollo rocket launch, and then an actual 363-foot, 6.2 million pound Saturn V is revealed in all its awesome stages. The breathtaking tension of the first moon landing follows in a separate theater, and your guests will have a front row seat as man takes the first small steps on the lunar surface.

The Dr. Kurt H. Debus Conference Facility

The Dr. Kurt H. Debus Conference Facility overlooks the historic Rocket Garden with its massive reminders of early space missions. This 5,765-square foot facility can be configured from one to five rooms for banquets or receptions. During breaks or receptions, your guests are free to explore authentic spacecraft displays from the Mercury and Gemini programs.

Debus Conference Facility

Full-Service Catering – Taking cues from the inspired surroundings, our in-house, full-service catering operation is capable of rising to any occasion. From multi-course, sit down formal dinners to business meetings, or fun, casual receptions. The range of possibilities at Kennedy Space Center helps you plan a successful, memorable event for groups of all sizes.

Astronaut Training Experience Program (ATXSM) – Command space-flight simulators as you and your crew achieve orbit in this enriching team-building activity. Take control of the Space Shuttle from launch to landing with a unique mission simulation experience. Programs can be customized as a private experience to accommodate your group's schedule.

Custom Tours at Kennedy Space Center are easy to arrange, so be sure your advance planning includes our tours of active launch pads and themed destinations about NASA's past, present and future. Once the sun goes down and the stars come out, prepare to be moonstruck as your guests meet and dine immersed in the epic adventure of the Apollo lunar landings.

Astronaut Appearances – Your chairman or CEO has probably received dozens of podium introductions – but nothing compares to the distinction of being welcomed by a bona fide NASA astronaut. Our **astronaut appearance programs** and **astronaut guided tours** feature motivating presentations and give your guests a chance to mingle, ask questions, take photos, and dine with a true space hero.
