

# AFTER HOURS ADVENTURE

## PROGRAM SUMMARY

This program gives students an uncommon opportunity – to spend an evening experiencing hands-on interactive exhibits and STEM-based challenges, all while space shuttle Atlantis floats overhead. There is also the chance to meet a real veteran NASA astronaut and participate in a Q&A session. All in all, it promises to be an experience that won't be forgotten.

## PROGRAM COMPONENTS

After Hours Access to Space Shuttle Atlantis | STEM-based Team Challenge | Hands-on Interactive Exhibits | Q&A Session with a Veteran NASA Astronaut | Dinner | Certificate and Souvenir
