

# OVERNIGHT ADVENTURE SPACE SHUTTLE ATLANTIS®

## PROGRAM SUMMARY

It's not every night you have the chance to sleep under a space-flown orbiter. This Overnight Adventure engages participants in an evening of space and science inspiration, including STEM-based challenges and hands-on interactive exhibits – all while space shuttle Atlantis floats overhead. As an homage to Atlantis' missions, this program has a focus on the International Space Station and sustaining life in orbit. Also, have your questions answered by a real veteran NASA astronaut. Following the conclusion of the Overnight Adventure, guests are invited to tour Kennedy Space Center Visitor Complex attractions and exhibits.

## PROGRAM COMPONENTS

After Hours Access to Space Shuttle Atlantis | STEM-based Team Challenge | Hands-on Interactive Exhibits | Q&A Session with a Veteran NASA Astronaut | Dinner, Late Night Snack, Continental Breakfast | Full Visitor Complex Admission Privileges

**Targeted Audience:** Student groups in grades 5-9.
