

# SALUTE TO SCIENCE

## PROGRAM SUMMARY

Geared for students and young science enthusiasts, our Salute To Science program offers fun-filled, day-long curriculum focused on space missions and the science behind them. A private briefing teaches important science concepts related to space travel. Activities include a hands-on, minds-on team engineering challenge and a private presentation by a real veteran NASA astronaut. Participants are welcome to explore Kennedy Space Center Visitor Complex with their group after the conclusion of the program.

## PROGRAM COMPONENTS

Educator-Led Tour of Certain Visitor Complex Attractions | Astronaut Encounter | Team Engineering Challenge | Lunch | Full Visitor Complex Admission Privileges
